

# Parent & Support Person DBT Class: Supporting Your Emotionally Sensitive Child

*a class for parents and supportive people*

Does someone you love struggle with stress, outbursts, anxiety, depression, or other difficulties with emotions or behavior? Join other supportive people learning ways to support your loved ones using the techniques and philosophies of DBT, led by a DBT therapist who is also a parent. This class covers topics including Mindfulness, Validation, and Emotion Regulation over 8 weeks. Materials will be provided. Topics parallel those our DBT clients are learning, geared for parents and other supportive people.

You may register for this class even if you cannot attend all of the sessions, which is common. Both parents may attend all of the classes for the price of one parent. This 8-week module will be held on Mondays from 7 to 8 p.m. If you need to request a different class day or time, please let us know. No intake appointment is required for the Parent & Support Person Class. Feel free to contact the class leaders or Clinical Director, Dr. Kirsten Moore, before registering, with any questions you may have about the class.

Contact us today to sign up for our next module,
